Contents

1 My first document

This is a short example of a LaTeX document I wrote on March 23, 2004. It shows *a few simple features* of automated typesetting, including

- setting the default font size to 12pt;
- specifying 'article' type formatting;
- using the Palatino typeface;
- adding special formatting for URLs;
- formatting a heading in 'section' style;
- using the LaTeX logo;
- generating today's date;
- formatting a list of items;
- centering and italicizing *a*) Indian food is available from any Indian restaurant. There are many of these in Cork and elsewhere. *b*) You get Italian food in Italian restaurants ;
- autonumbering the pages[1]

1.1 More information

This example was taken from 'Formatting Information' (see Figure 1 on p.2 of §1), which you can download from `http://www.ctan.org/tex-archive/info/beginlatex/peter/flynn/ucc/demo/blah` and use as a teach-yourself guide. You can type the `\section{boo}` command

```
\itshape Have a nice day!
Where do you want to go tomorrow?
```
